<110>	Has your company received its ETC certification from the FCC?	(yes / no)	<input type="radio"/> <input checked="" type="radio"/>
<111>	If your answer to Line <110> is yes, do you have an existing §54.202(a) "5 year plan" filed with the FCC?	(yes / no)	<input type="radio"/> <input type="radio"/>

If your answer to Line <111> is yes, please file a progress report, on line <112> delineating the status of your company's existing § 54.202(a) "5 year plan" on file with the FCC, as it relates to your provision of voice telephony service.

<112> Attach Five-Year Service Quality Improvement Plan or, in subsequent years, your annual progress report filed pursuant to 47 C.F.R. § 54.313(a)(1). If your company is a CETC which only receives frozen support, your progress report is only required to address voice telephony service.

Name of Attached Document

Please select the appropriate responses below (Yes, No, Not Applicable) to confirm that the attached document(s), on line 112, contains a progress report on its five-year service quality improvement plan pursuant to §54.202(a). The information shall be submitted at the wire center level or census block as appropriate.

- <113> Maps detailing progress towards meeting plan targets
- <114> Report how much universal service (USF) support was received
- <115> How much (USF) was used to improve service quality and how support was used to improve service quality
- <116> How much (USF) was used to improve service coverage and how support was used to improve service coverage
- <117> How much (USF) was used to improve service capacity and how support was used to improve service capacity
- <118> Provide an explanation of network improvement targets not met in the prior calendar year.

Select the appropriate responses below (Yes, No, Not Applicable) to note compliance as a recipient of Incremental High Cost support, High Cost support to offset access charge reductions, and Connect America Phase II support as set forth in 47 CFR § 54.313(b),(c),(d),(e). The information reported on this form and in the documents attached below is accurate.

Incremental Connect America Phase I reporting

- <2010> 2nd Year Certification 47 CFR § 54.313(b)(1)(i) - Note that for the July 1 2016 certification, this applies to Round 2 recipients of Incremental Support
- <2011> 3rd Year Certification 47 CFR § 54.313(b)(1)(ii) - Note that for the July 1 2016 certification, this applies to Round 1 recipients of Incremental Support
- <2022> Recipient certifies, representing year two after filing a notice of acceptance of funding pursuant to 54.312(c), that the locations in question are not receiving support under the Broadband Initiatives Program or the Broadband Technology Opportunities Program for projects that will provide broadband with speeds of at least 4 Mbps/1Mbps - 54.313(b)(2)(i). Round 2 recipients only.
- <2023> The attachment on line 2024 includes a statement of the total amount of capital funding expended in the previous year in meeting Connect America Phase I deployment obligations, accompanied by a list of census blocks indicating where funding was spent. This covers year two - 54.313(b)(2)(ii). Round 2 recipients only.
- <2024A> Round 2 Recipient of Incremental Support?
- <2024B> Attach list of census blocks indicating where funding was spent in year two - 54.313(b)(2)(ii). Round 2 recipients only.
- <2025A> Round 1 or Round 2 Recipient of Incremental Support?
- <2025B> Attach geocoded Information for Phase I milestone reports (Round 1 for year three and Round 2 for year two) - Connect America Fund , WC Docket 10-90, Report and Order, FCC 13-
- <2015> 2016 and future Frozen Support Certification 47 CFR § 54.313(c)(4)

4005 Rural Broadband Experiment

Authorized Rural Broadband Experiment (RBE) recipients must address the certification for public interest obligations, provide a list of newly served community anchor institutions, and provide a list of locations where broadband has been deployed.

Public Interest Obligations – FCC 14-98 (paragraphs 26-29, 78)

Please address Line 4001 regarding compliance with the Commission’s public interest obligations. All RBE participants must provide a response to Line 4001.

4001. Recipient certifies that it is offering broadband to the identified locations meeting the requisite public interest obligations consistent with the category for which they were selected, including broadband speed, latency, usage capacity, and rates that are reasonably comparable to rates for comparable offerings in urban areas?

Community Anchor Institutions – FCC 14-98 (paragraph 79)

4003a. RBE participants must provide the number, names, and addresses of community anchor institutions to which they newly deployed broadband service in the preceding calendar year. On this line, please respond (yes – attach new community anchors, no – no new anchors) to indicate whether this list will be provided.

If yes to 4003A, please provide a response for 4003B.

4003b. Provide the number, names and addresses of community anchor institutions to which the recipient newly began providing access to broadband service in the preceding calendar year.

Name of Attached Document Listing Required Information

Broadband Deployment Locations – FCC 14-98 (paragraph 80)

4004a. Attach a list of geocoded locations to which broadband has been deployed as of the June 1st immediately preceding the July 1st filing deadline for the FCC Form 481.

Name of Attached Document Listing Required Information

4004b. Attach evidence demonstrating that the recipient is meeting the relevant public service obligations for the identified locations. Materials must at least detail the pricing, offered broadband speed and data usage allowances available in the relevant geographic area.

TO BE COMPLETED BY THE REPORTING CARRIER, IF THE REPORTING CARRIER IS FILING ANNUAL REPORTING ON ITS OWN BEHALF:

Certification of Officer as to the Accuracy of the Data Reported for the Annual Reporting for CAF or LI Recipients	
I certify that I am an officer of the reporting carrier; my responsibilities include ensuring the accuracy of the annual reporting requirements for universal service support recipients; and, to the best of my knowledge, the information reported on this form and in any attachments is accurate.	
Name of Reporting Carrier: SOUTHWESTERN BELL-OK	
Signature of Authorized Officer: CERTIFIED ONLINE	Date 06/22/2016
Printed name of Authorized Officer: STEVE STINE	
Title or position of Authorized Officer: SR. VICE PRESIDENT-OPERATIONS PRIORITIZATION & OPTIMIZATION	
Telephone number of Authorized Officer: 2147575790 ext.	
Study Area Code of Reporting Carrier: 435215	Filing Due Date for this form: 07/01/2016
Persons willfully making false statements on this form can be punished by fine or forfeiture under the Communications Act of 1934, 47 U.S.C. §§ 502, 503(b), or fine or imprisonment under Title 18 of the United States Code, 18 U.S.C. § 1001.	

**Certification - Agent / Carrier
Data Collection Form**

TO BE COMPLETED BY THE REPORTING CARRIER, IF AN AGENT IS FILING ANNUAL REPORTS ON THE CARRIER'S BEHALF:

Certification of Officer to Authorize an Agent to File Annual Reports for CAF or LI Recipients on Behalf of Reporting Carrier	
I certify that (Name of Agent) _____ is authorized to submit the information reported on behalf of the reporting carrier. I also certify that I am an officer of the reporting carrier; my responsibilities include ensuring the accuracy of the annual data reporting requirements provided to the authorized agent; and, to the best of my knowledge, the reports and data provided to the authorized agent is accurate.	
Name of Authorized Agent:	
Name of Reporting Carrier:	
Signature of Authorized Officer:	Date:
Printed name of Authorized Officer:	
Title or position of Authorized Officer:	
Telephone number of Authorized Officer:	
Study Area Code of Reporting Carrier:	Filing Due Date for this form:
Persons willfully making false statements on this form can be punished by fine or forfeiture under the Communications Act of 1934, 47 U.S.C. §§ 502, 503(b), or fine or imprisonment under Title 18 of the United States Code, 18 U.S.C. § 1001.	

TO BE COMPLETED BY THE AUTHORIZED AGENT:

Certification of Agent Authorized to File Annual Reports for CAF or LI Recipients on Behalf of Reporting Carrier	
I, as agent for the reporting carrier, certify that I am authorized to submit the annual reports for universal service support recipients on behalf of the reporting carrier; I have provided the data reported herein based on data provided by the reporting carrier; and, to the best of my knowledge, the information reported herein is accurate.	
Name of Reporting Carrier:	
Name of Authorized Agent Firm:	
Signature of Authorized Agent or Employee of Agent:	Date:
Name of Authorized Agent Employee:

REDACTED – FOR PUBLIC DISCLOSURE

(200) Service Outage Voice Reporting Data Collection Form

REDACTED

FOR PUBLIC DISCLOSURE

Line 510 – Description of Compliance with Service Quality and Consumer Protection

AT&T has established methods and procedures that are designed to facilitate compliance with applicable service quality standards and consumer protection rules. In the event that a service quality or consumer protection issue arises, AT&T works with appropriate government entities and/or customers to resolve the issue consistent with AT&T's obligations.

AT&T has implemented Customer Proprietary Network Information and Truth-in-Billing procedures in accordance with the Commission's requirements. AT&T also makes available the rates, terms and conditions of its service offerings through service guides, guidebooks and, where applicable, tariffs, which consumers can access through AT&T's website (*available at <http://www.att.com/gen/public-affairs?pid=11970>*). Among other things, these documents clearly explain the terms of service, including dispute resolution procedures and billing and payment requirements. Consumers are able to contact AT&T with questions or concerns through a toll-free number or online. Also, AT&T advertises its services using media of general distribution and these advertisements are clear and contain appropriate disclosures. Lastly, AT&T has a company-wide privacy policy that describes how AT&T collects, uses and protects its customer's information (*available at http://www.att.com/Common/about_us/privacy_policy/print_policy.html*).

Line 610 – Descriptive Document for Functionality in Emergency Situations

Section 54.313(a) (6) of the Commission's rules requires an Eligible Telecommunication Carrier (ETC) to certify an ability to function in emergency situations as set forth in Section 54.202(a)(2) of the Commission's rules. The standards set forth in Section 54.202(a)(2) include having a reasonable amount of back-up power to ensure functionality without an external power source, having an ability to reroute traffic around damaged facilities, and having a capability to manage traffic spikes resulting from emergency situations.

All AT&T ILEC central offices are equipped with battery backup equipment. Offices with dedicated standby generators are equipped with sufficient battery capacity to run for approximately four hours without power; offices with access to portable generators have sufficient battery capacity to operate for approximately eight hours without power. The fuel tanks supporting the standby generators are typically sized to supply enough fuel, at three-quarters full fuel capacity, for approximately one to three (or more) days runtime (the continuous operation of the engine alternator set at 100% [full] load).

Each major element of the AT&T network (IP, TDM voice, cellular, etc.) is under the oversight of a Technology Reliability Center (TRC) that manages and controls the network's operation. Technology Reliability Centers are located throughout the United States and are responsible for:

- Proactive 7x24 surveillance of network elements (fault management)
- Progress and event notification to Customer Care Centers
- Asset management (including spare equipment availability)
- Logical configuration management
- Network upgrades and change management
- Direction of the maintenance activities of business partners (including the network field operations force and capacity management).

The AT&T Global Technology Operations Center (GTOC) provides the command and control functions for the TRC organization and serves as the central point of contact for all network and application related traffic and incident management across all of AT&T. The GTOC proactively manages the data and voice traffic flowing across AT&T's domestic and global networks twenty-four hours a day, seven days a week. This proactive network management ensures maximum traffic flow by preventing, minimizing, and/or controlling disruptions to network elements and applications, and impacts to customers. It also performs storm impact reporting to ensure service impacts due to storms are mitigated as rapidly as possible and is prepared to respond to security intrusion related events and finally administers Change Restrictions to reduce risk of change caused disruptions proactively for special events and reactively for emergency conditions.

The GTOC's 3P (Preventive, Predictive, Pro-Active) process collects, identifies, and evaluates the consolidated network view of any high-risk network vulnerabilities to determine if there is a need to develop a mitigation response plan for the network.

- This process is used for National Special Security Events (NSSEs), political conventions, the Olympics, high profile sporting events, and hurricane/storm preparations.
- The mitigation plan is developed to minimize network service affecting incidents with the activation of a managed restoration plan.

- In addition to ensuring a response plan for any adverse events, the team also reviews and addresses issues such as capacity, infrastructure, and physical reliability.

AT&T emergency response teams have extensive experience in planning for and responding to a wide variety of situations, including hurricanes, floods, power outages, earthquakes and man-made disasters. We have a variety of specialist “First Strike” teams with responders that work to restore the AT&T network as quickly and safely as possible. Our Network Disaster Recovery (NDR) program allows a rapid and predictable response to the loss of an entire network office. The program includes specially trained managers, engineers and technicians from across the company, as well as a fleet of more than 320 technology recovery trailers and support vehicles that house the same equipment and components as our data-routing or voice-switching centers. The NDR process and capability has been tested in field exercises several times a year since 1992.

The AT&T Technology Operations Business Continuity Team manages business continuity risks across AT&T’s Network and IT technologies and organizations. The scope includes the development and maintenance of business continuity plans and emergency procedures consistent with industry best practices. Our plans are designed to get processes, applications and personnel back to a Business-As-Usual (BAU) state as quickly and safely as possible. The planning process includes incorporating improvement opportunities from previous events into future response activities.

AT&T’s Technology Operations Emergency Management Center manages processes, procedures, resources, and teams in response to disasters. This includes up-front prevention and mitigation efforts, as well as executing comprehensive emergency response and recovery plans in the event of a disaster or crisis:

- Business Continuity – development, maintenance, and emergency procedures consistent with industry best practices.
- Disaster Recovery – planning, testing and actual recovery of critical network infrastructure and critical IT infrastructure and applications.

In 2015, AT&T became the first telecom sector company to become certified under the new international Business Continuity Management standard (ISO 22301) for the Voluntary Private Sector Preparedness Program (PS-Prep™). AT&T received its original certification for PS-Prep in 2012. The new ISO standard is the logical successor to the previous standard and became the accepted Business Continuity Management standard worldwide. PS-Prep™ is a partnership between the Department of Homeland Security and the private sector enabling private businesses to demonstrate their capabilities for planning for, responding to, and recovering from disasters and other emergencies.

Based on the foregoing, the reporting carrier certifies it is able to function in emergency situations as set forth in Section 54.202(a)(2).

April 13, 2016

Apache Tribe of Oklahoma
Lyman Guy, Chairman
511 E. Colorado
Anadarko, OK 73005

Dear Chairman Guy:

AT&T Oklahoma has been designated as an eligible telecommunications carrier ("ETC") for the purpose of receiving federal high-cost universal service support ("USF") in certain geographic locations in Oklahoma including all or part of the lands of Apache Tribe of Oklahoma. As an ETC, AT&T Oklahoma is subject to the rules and requirements of the Federal Communications Commission ("FCC"), including 47 C.F.R. § 54.313(a)(9), which requires high-cost USF recipients that serve Tribal lands to have discussions with Tribal governments.¹ This rule became effective August 5, 2013.²

You are receiving this letter because in 2015 AT&T Oklahoma received federal high-cost support in Oklahoma. Although AT&T Oklahoma did not use federal high-cost support funds in areas governed by your Tribal government in 2015, AT&T is available for discussions with you and your colleagues about AT&T's service and the topics set forth in 47 C.F.R. § 54.313(a)(9), such as planning, sustainability, and land use issues.

I am available to talk with you at your earliest convenience about these and other issues.

Sincerely,

¹ See *Connect America Fund*, WC Docket No. 10-90 et al., 26 FCC Rcd 17663 (2011) ("USF/ICC Transformation Order"); 47 C.F.R. § 54.313(a)(9). See also *Office of Native Affairs and Policy, Wireless Telecommunications Bureau, and Wireline Competition Bureau Issue Further Guidance on Tribal Government Engagement Obligation Provisions of the Connect America Fund*, Public Notice, DA 12-11665 (rel. July 19, 2012), available at https://apps.fcc.gov/edocs_public/attachmatch/DA-12-1165A1.pdf

² See 78 Fed. Reg. 47211 (Aug. 5, 2013). This rule is the subject of numerous petitions for reconsideration, which, to date, the FCC has neglected to address. See *Petition for Reconsideration of USTelecom*, WC Docket No. 10-90 et al. (filed Dec. 29, 2011); *Rural Incumbent Local Exchange Carriers Serving Tribal Lands Petition for Reconsideration*, WC Docket No. 10-90 et al. (filed Dec. 29, 2011); *Petition for Reconsideration and Clarification of USTelecom*, WC Docket No. 10-90 et al., 4-16 (filed Aug. 20, 2012); *USTelecom's Petition for Reconsideration and Clarification and Comments in Response to Paperwork Reduction Act*, WC Docket No. 10-90 et al. (filed April 4, 2013).

Tahlequah, OK 74465

Principal Chief Baker:

AT&T Oklahoma has been designated as an eligible telecommunications carrier ("ETC") for the purpose of receiving federal high-cost universal service support ("USF") in certain geographic locations in Oklahoma including all or part of the lands of Cherokee Nation. As an ETC, AT&T Oklahoma is subject to the rules and requirements of the Federal Communications Commission ("FCC"), including 47 C.F.R. § 54.313(a)(9), which requires high-cost USF recipients that serve Tribal lands to have discussions with Tribal governments.¹ This rule became effective August 5, 2013.²

You are receiving this letter because in 2015 AT&T Oklahoma received federal high-cost support in Oklahoma. Although AT&T Oklahoma did not use federal high-cost support funds in areas governed by your Tribal government in 2015, AT&T is available for discussions with you and your colleagues about AT&T's service and the topics set forth in 47 C.F.R. § 54.313(a)(9), such as planning, sustainability, and land use issues.

I am available to talk with you at your earliest convenience about these and other issues.

Sincerely,

¹ See *Connect America Fund*, WC Docket No. 10-90 et al., 26 FCC Rcd 17663 (2011) ("USF/ICC Transformation Order"); 47 C.F.R. § 54.313(a)(9). See also *Office of Native Affairs and Policy, Wireless Telecommunications Bureau, and Wireline Competition Bureau Issue Further Guidance on Tribal Government Engagement Obligation Provisions of the Connect America Fund*, Public Notice, DA 12-11665 (rel. As an ETC, AT&T Oklahoma is subject to the rules and requirements of the Federal Communications Commission ("FCC"), including 47 C.F.R. § 54.313(a)(9), which requires high-cost USF recipients that serve Tribal lands to have discussions with Tribal governments.¹ This rule became effective August 5, 2013.²

You are receiving this letter because in 2015 AT&T Oklahoma received federal high-cost support in Oklahoma. Although AT&T Oklahoma did not use federal high-cost support funds in areas governed by your Tribal government in 2015, AT&T is available for discussions with you and your colleagues about AT&T's service and the topics set forth in 47 C.F.R. § 54.313(a)(9), such as planning, sustainability, and land use issues.

I am available to talk with you at your earliest convenience about these and other issues.

Sincerely,

¹ See *Connect America Fund*, WC Docket No. 10-90 et al., 26 FCC Rcd 17663 (2011) ("USF/ICC Transformation Order"); 47 C.F.R. § 54.313(a)(9). (filed Dec. 29, 2011); *Petition for Reconsideration and Clarification of USTelecom*, WC Docket No. 10-90 et al., 4-16 (filed Aug. 20, 2012); *USTelecom's Petition for Reconsideration and Clarification and Comments in Response to Paperwork Reduction Act*, WC Docket No. 10-90 et al. (filed April 4, 2013).

Voice Services Rate Comparability Compliance

AT&T's fixed voice service rates for each exchange included in this Form 481 filing, as displayed on Line 703c of the attached Line 700 form, are below the FCC's 2016 \$41.07 reasonable comparability benchmark for basic residential voice service. *See Wireline Competition Bureau Announces Results of 2016 Urban Rate Survey for Fixed Voice and Broadband Services*, WC Docket No. 10-90, DA 16-362 (rel. April 5, 2016).

Broadband Service Rate Comparability Compliance

AT&T has at least one broadband service offering, as displayed on the attached Line 1000 form, that is priced at or below the FCC's 2016 reasonable comparability benchmark for broadband service. See, for example, AT&T's 12 Mbps download speed, 1 Mbps upload speed, with 250 GB monthly usage allowance that is priced at \$57.00, which is below the FCC's reasonable comparability benchmark of \$74.85 for that service. See *Wireline Competition Bureau Announces Results of 2016 Urban Rate Survey for Fixed Voice and Broadband Services*, WC Docket No. 10-90, DA 16-362 (rel. April 5, 2016).
